PAVILION

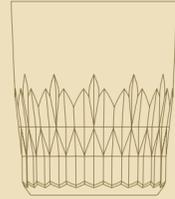

the beauty of light & shadow

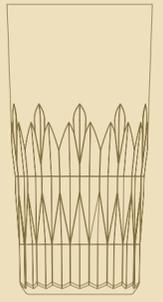

The beauty of light and shadow is revealed in the architecture of the pavilion. Each crystal cut is designed to reflect light and shine from different angles and directions, transforming everyday drinking moment into an extraordinary indulgence.

PAVILION RADIANT

The play of lights and shadows is brilliantly emitted in this pattern, which is akin to a beautifully cut diamond. Unique in its faceting, it allows light to pass through gently and radiate widely, creating a warm and friendly atmosphere.
