SERVING IN STYLE

Modules consist of standardized units or sections that allow for ease of construction or flexible arrangement, and serve as the inspiration for the latest collection from Ocean Glass, the Modular.

Modular is designed especially with convenience for the HoReCa industry in mind. The stacking function of this collection helps to conserve storage space and organize areas and sections. The shape of the glass is a thoughtfully designed form: simple and modern with a steady grip that offers durability, which make this collection ready to serve for frequent usage.
